

Early Childhood, Currimundi State School

Shanley Richards, Currimundi Special School

G'day, so you're thinking of Student Teaching in 2017? You're invited to student teach, with us, in Australia! What are you waiting for?

Sunshine Coast

"Physical Education student teaching in Australia has been a great decision. It's strengthened our classroom professionalism, enabling our teaching careers to be soundly kick-started. And, by taking advantage of everything offered, immersing ourselves in a new culture, we've been encouraged to get to know the school and wider Australian communities well. We're also now more aware, globally." **Maleda Funk, Physical Education, SUNY Brockport, and Natalie DiMeglio, Physical Education, SUNY Cortland**

"My Australian student teaching experience has been profound, engaging, eye opening, and exciting. Not only did I have the opportunity to collaborate with student teacher colleagues from other SUNY schools but also received the upmost support from my placement school, allowing me to develop strong relationships with students, parents, and staff". **Monet Halliday, Elementary Education, SUNY New Paltz**

"Coming to Australia has given me the opportunity to step out of my comfort zone and grow into becoming not only a better person but also a better teacher. The school experiences consistently provided have helped me gain more of the tools needed to successfully run my own classroom. My host teachers, and other school colleagues, welcomed me so warmly, giving me as many opportunities as possible to develop as a successful teacher". **Allison Callaghan, Adolescent Mathematics, SUNY Oneonta**

"All of my host school's administration and staff members were incredibly welcoming. I felt encouraged and supported by them at all times, feeling like a genuine school community member. The feedback and evaluations I received were frequent and extremely helpful, always allowing me to reflect and improve. Student teaching in Australia is perfect for anyone who wants to internationally experience a quality opportunity to teach and learn, whilst getting a great travelling experience at the same time, also". **Kyle Knox, Adolescent Education English, SUNY Potsdam**

"My expectations have been beyond fulfilled throughout this Australian student teaching experience. The relationships I made with my teachers, inside and outside of school, have impacted my life tremendously, and will continue to do so throughout my lifelong teaching journey. I will be forever grateful for this, along with the pedagogical knowledge and skills I gained in Australia, which have enhanced those already developed". **Morgan Vrabel, Childhood Education, SUNY Cortland**

... They've taught Downunder!

2017 Program schools are:

Buddina State School www.buddinass.eq.edu.au

Chancellor State College www.chancellorsc.eq.edu.au

Chevallum State School www.chevalluss.eq.edu.au

Currimundi Special Education School www.currimunspecs.eq.edu.au

Currimundi State School www.currimunss.eq.edu.au

Maroochydore State High School www.maroochyshs.eq.edu.au

Meridan State College www.meridansc.eq.edu.au

Mooloolaba State School www.mooloolbss.eq.edu.au

Mountain Creek State High School www.mtncreekshs.eq.edu.au

Mountain Creek State School www.mtncreekss.eq.edu.au

Talara Primary College www.talacolss.eq.edu.au

... So, get out here! The schools are waiting for you. And, travel with us along Australia's eastern tropical coast to the Great Barrier Reef, and through outback Queensland!

2017 Program dates are Friday 9 June to Saturday 9 September (13 weeks).
